

Moore & Wright Micrometer Heads

Complies with BS1734 and DIN 863 where applicable

Moore & Wright micrometer heads are available in a range of standard sizes and configurations. However, if you have specific requirements which are not covered by the models listed below then please contact our Customer Service Department.

MHM-970M

Models 970, 972:

- 0 - 13mm or 0 - 0.5" capacity, resolution 0.01mm / 0.001"
- Fitted with either 'speeder' type ratchet or flush end screw

MHM-980M

Model 980:

- 0 - 13mm capacity, resolution 0.01mm
- Compact, space saving design

MHM-522M

Models 521, 522:

- 0 - 25mm or 0 - 1" capacity, resolution 0.01mm / 0.001"
- 'Speeder' type ratchet

MHM-543M

Model 543:

- 0 - 25mm or 0 - 1" capacity, resolution 0.01mm / 0.001"
- 'Speeder' type ratchet
- Locking screw

MHM-554M

Model 554:

- 0 - 25mm capacity, resolution 0.01mm
- Set nut on stem

MHM-771M

Model 771:

- 0 - 25mm or 0 - 1" capacity, resolution 0.005mm / 0.0002"
- Suitable for medium to high accuracy applications
- Fitted with 'speeder'

MW310-25

Model 310:

- 0 - 25mm capacity, resolution 0.01mm / 0.001"
- Suitable for medium to high accuracy applications
- Fitted with ratchet 'basic'
- Also available with spherical spindle

MW310-15

Model 310-15:

- Spindle diameter 6.5mm
- Universal micrometer head for X-Y stages or other purposes
- Satin chrome finished body
- Also available with spherical spindle

MHM-801M

Model 801:

- 0-25mm or 0-15mm capacity resolution 0.001mm
- Suitable for medium to high accuracy applications
- Fitted with ratchet

Sylvac Digital Micrometer Heads

Features

Data output RS232, combined with external power supply

- Fine adjustment available (accessories)
- Type H and V (same model)
- Reduced dimensions, compact design
- Selection of measuring direction, preset function, absolute of relative measurement

WiFi

see p251 for wireless options
